

BURGER SNACKS

Materials

- 2 vanilla wafers . . . “hamburger buns”
- 1 chocolate cookie “hamburger”
- Red icing “ketchup”
- Yellow icing “mustard”
- Green coconut “lettuce”

DIRECTIONS

Learn about agricultural products and farms while enjoying a “burger” treat!

1. Color coconut green with food coloring.
2. Place a small amount of yellow icing on one vanilla wafer. Place chocolate cookie on top.
3. Place small amount of red icing on top of chocolate cookie. Sprinkle with coconut “lettuce.” Place second vanilla wafer on top.

Students may eat their “hamburgers” when finished.
IMPORTANT NOTE: Always remember to check for food allergies first!

Concept Development:

You can add to the depth of this simple activity by discussing or researching where the actual parts of a hamburger come from.

For example, the bun is made of wheat. Where in the United States is wheat grown?
