

FOSSIL MIX

Materials

- ½ cup salt
- 1 cup flour
- Mixing spoon
- Mixing bowl
- ½ cup cold brewed coffee
- 1 cup used coffee grounds
- Measuring cups
- Gallon-sized zippered plastic bag

DIRECTIONS

1. Measure salt, flour, coffee, and coffee grounds. Place these ingredients in the bag.
2. Mix ingredients in bag until they form a smooth dough. Use a spoon to mash any lumps.
3. Break off a piece of dough large enough to imprint your “fossil” object. Roll it into a ball, then flatten it with the heel of your hand.
4. Press object into the dough. Let dough dry overnight.
5. Remove the fossil object to allow dough to finish drying completely.
